

THE ADVENT SCHOOL

27th April 2026

CIRCULAR – INTRODUCTION OF COMPUTATIONAL THINKING & AI CURRICULUM
(CLASSES 3–8)

Dear Parents,
Greetings!

We are pleased to inform you that as per the **latest guidelines of CBSE, Computational Thinking (CT)** has been introduced for students of **Classes 3 to 5**, and **Computational Thinking along with Artificial Intelligence (AI) for Classes 6 to 8**.

This initiative aims to equip students with **essential 21st century skills** such as logical reasoning, problem-solving, creativity, and basic understanding of emerging technologies.

Key Highlights:

- **Classes 3–5:** Computational Thinking concepts will be integrated into regular teaching and will be delivered by Mathematics and other subject teachers.
- **Classes 6–8:** Students will be introduced to advanced Computational Thinking, interdisciplinary project work, and foundational concepts of Artificial Intelligence.
- **Student Handbooks:** To support learning, CBSE has provided student handbooks for each class. The PDFs of these handbooks will be shared in the respective class WhatsApp groups.

Important Instruction for Parents:

You are requested to download and arrange a printed copy of the student handbook for your ward at the earliest. Students will be required to refer to these regularly during classroom activities and project work.

We look forward to your cooperation in ensuring that your child benefits fully from this progressive learning initiative.

For any queries, you may contact the school office.

Regards,

Principal
